I. INTRODUCTION

EUROGAMES Ltd. is a commercial company, established in year 2006.

The basic activity of the company is:

- ✓ Manufacturing, delivery and service of tourist attraction trains and trailers for trains.
- ✓ Reconstruction of special automobiles
- ✓ Change of the construction and purpose of buses, minibuses, vehicles and lorries.
- ✓ Giving for rent and managing of lines for tourist attraction trains and attraction vehicles.

The manufactured by us products and services are in conformity with an introduced system for management of the quality, preservation of the environment, health and safety at work **ISO 9001:2008**, **ISO 14001:2004** and **BS OHSAS 18001:2007**. We elaborate tourist attraction trains by order, as with petrol/gas, diesel, as well as with electricity, with minimum noxious emission Euro 5.

We have at our disposal a workshop for metal constructions, equipped with all necessary metal working instruments and machines for elaboration of chassis, trailers and constructions for vehicles and lorries. We have at our disposal a base for repair works, maintenance and service of lorries and vehicles, equipped halls with four column gids, two column gids and passage ways for vehicles and lorries. We possess the necessary equipment, stock and instruments for elaboration and remaking of automobiles. The company has at its disposal machines for elaboration of glass reinforced plastic products, as well as with a chamber for painting of vehicles and lorries.

Our company has always strived to achieve and to maintain the highest levels of quality of the products at a competitive price and also to stick to the global standards and requirements for manufacturing, delivery and installation. All mechanisms in the company are connected with the idea for achieving of the highest levels of satisfaction of the customer.

With its experience, good reputation and serious number of realized projects, regarding the design work, the manufacturing and the sale of **luxurious attraction trains** by order, the company ranks among the biggest manufacturers, traders and rental companies in the world.

II. POTENTIALITIES

The tourist attraction train can take you everywhere. It stimulates the interest of the tourists towards the archeological objects and sights as it offers them a comfortable and pleasant tour. This platform is welcomed by many municipalities in the face of their representatives, the local authority and the very mayors as a jumping-off place for the business and a way for encouragement of the tourist business. The train conforms its route with the individual desires of the tourist with purpose maximum pleasure of the trip.

The decision for the usage of the train is sensible, since the regions around the sights are busiest and there is difficult to be reached with another type of vehicles. The buses do not give such attractive opportunity for transport. The taxis, on the other hand, are an expensive pleasure. Here is the place of the tourist train – one new idea, which is a successful alternative for a cultural tour at the puff of a pleasant wind.

In many cities the tourist train is the basic excursion vehicle, which entertains the tourists at an accessible price. The presence of speaker-systems and a wireless microphone allows the guide to acquaint them with sights, important public buildings, entertaining and commercial centres, bookshops, cafes, where not rarely take place different cultural activities as festivals, concerts and so on.

Not to forget and the colourfulness of the very train, which on its own is a tourist attraction. The travelling with it is a guarantee for positive emotions.

III. OUR PRODUCTS

We offer to elaborate especially for you in conformity with your personal necessities and in accordance with your own possibilities a **TOURIST ATTRACTION TRAIN**, which shall ASSIST your business, as simultaneously with this it can ADVERTISE it, because the train itself is an incredible moving advertisement.

LOCOMOTIVE

It is elaborated in compliance with the technical assignment of the Customer, as there are observed all parameters, regarding an engine, chassis, brakes, transmission, carosserie and size.

The bearing structure is elaborated of steel profiles, and the outer casing is elaborated of high quality glass reinforced plastic in accordance with the Vision, desired by the customer.

There are different variants for exterior visualization of the locomotive. At the acceptance of an order by a customer, a designer and a constructor of the company carry out repeated meetings with the customer until the specification of the concrete design of the locomotive, so that it shall correspond to the concepts and requirements of the customer.

Except for the vision, there also has to be specified, which type of tourist attraction train shall satisfy the necessities of the customer to the maximum.

The variants, which we offer are the following:

- ✓ A tourist attraction train, working with petrol/liquefied petroleum gas
- ✓ A tourist attraction train with a diesel engine
- ✓ A hybrid tourist attraction train / operated with electrical power/

The photo material, offered here is of already manufactured by us different attraction trains:

CARRIAGES

The same are elaborated in accordance with the technical assignment of the Customer as there are observed all parameters, regarding chassis, brakes and tyres, capacity for 1 carriage, size and other extras.

We offer several variants for small carriages:

1. Summer

This variant of small carriages is mainly bought.

2. Spring – autumn

Another also frequently chosen variant are the Small Carriages with a spring-autumn type with crystal vinyl.

3. Closed type

We manufacture and offer trains of a closed type, which small carriages are with glasses and are suitable for all season usage. The carriages are with different capacity of the passengers.

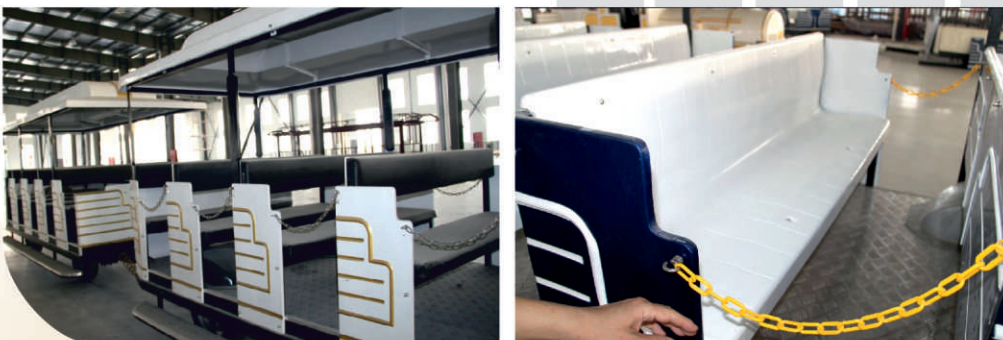

We offer from 20 up to 28 seats with backs of foam and individual glass reinforced plastic seats. There are variants for installation of an audio system with a microphone, a booster and speaker-systems. We offer different sizes of the small carriages, as they vary according to the model.

At desire on behalf of the customer there can be ***elaborated and a platform for disabled persons and baby-carriages:***

Besides the seats there can be elaborated and put in accordance with the requirements of the customer:

- ✓ Individual glass reinforced plastic seats;
- ✓ A variant with whole seats with backs made of foam.

IV. OUR STRONG POINTS

The united team, the innovative ideas, the set assignments, the realization of the purposes, as well as the permanent contacts with the customer made us understand them, to develop ourselves and adequately to conform with the necessity to exist and to be generated new and much more beautiful tourist trains by order.

For us, besides that the customer is always right, he/she is THE MOST IMPORTANT. We strive to offer them and to create the product, which they actually need.

The gathered serious professional experience in Bulgaria brought us customers from all over the world and we can praise ourselves with partners from Turkey, Greece, Romania, Macedonia, Serbia, Ukraine, Hungary and etc.
