Why to choose Mall train EUROGAMES:

- Because it is electric;
- Because it's mini;
- Because it is slow;
- Because it is quiet;
- Because it is safe;
- Because it is ecologically clean;
- Because this is a new concept for green transport and entertainment;
- Because it is fun for both children and adults;
- Its made for indoor movement.

"Eurogames" Ltd. is the only certified producer of mini tourist trains in Europe.

We have all necessary certificates: EN ISO 9001: 2008, EN ISO 14001: 2004, OHSAS 18001: 2007.

THE IDEA

- The movement of electric mini train in Parks, Malls, downtown or gated communities would attract new visitors, tourists, customers and others. The target group is families with children. While parents relax, drink coffee, lunch or shopping, children can have fun on the train, and the parents can enjoy the ride too!

- The train is very attractive as spewing smoke through retrofitting smoke machine.

- With belching smoke it has a realistic view as a steam engine locomotive.

- Also can be added a music player to play music during the holidays.

- The train also can be a advertising space
